

INDEX FOR VOL. 3

The following indexes of authors and subjects cover the four quarterly issues of the third volume of the *Policy Studies Review*. The four issues are numbered from page 1 through 531 plus the 264 pages of the special issue which was published outside the regular quarterly cycle. That issue, however, was indexed in issue number 1 of volume 3 along with the volume 2 index, although it should be counted as part of volume 3. The regular issues cover a variety of topics by way of the symposia, the nonsymposium articles and the literature reviews. The symposia especially dealt with policy toward the handicapped, urban policy problems, citizen participation, and innovation policy.

The Index of Authors covers authors of articles, authors of books reviewed, and reviewers of books, but not names referred to in the articles. The Index of Subjects mainly covers the basic concepts included in the titles and subtitles of the symposium articles and the nonsymposium articles plus the titles of books reviewed. The bodies of the articles and the book reviews were also consulted to clarify the concepts derived from the titles. Future annual indexes will appear in the first issue of each volume to cover all issues in the previous volume.
